

### **AMENDMENTS TO THE SPECIFICATION**

In the newly added section "BRIEF DESCRIPTION OF THE FIGURES" that was amended into the specification in the last filed response, please add the following new paragraph after the paragraph that starts "Figure 3B."

Figures 4A-4B show absorption at 541 nm verses time for 26% S-NO-HSA (Figure 4A), 74% S-NO-HSA (Figure 4B), and 74% S-NO-HSA with nitrosating agent.
